

KIWASCO Advances Education Support with New Group of Scholarship Recipients

15th January, 2026

The flag-off ceremony for the Refresh Life Scholarship Programme beneficiaries was held today at the head office. Ten learners from Nyalenda A and B wards in Kisumu Central Constituency qualified for the scholarship after meeting all evaluation criteria. The beneficiaries were drawn from Joel Omino, St. Mark's Nyabera, Kassagam, Pandpieri and Nanga public junior and primary schools.

This occasion marks an important milestone for the learners and their parents, signifying the start of a transformative journey as the students proceed to senior schools of their choice.

KIWASCO, the sole implementer of the programme since 2024, is proud to release the second cohort of beneficiaries. Through our CSR strategy—specifically the pillar focused on supporting education—we remain committed to empowering bright but needy students within our service area.
