

## Tree Planting during Mazingira Day 2025

*10th October, 2024*

KIWASCO was proud to host the City of Kisumu and its partners for a tree-planting drive in celebration of Mazingira Day. With a shared mission of fostering a sustainable future, the team successfully planted 3,000 trees at the Kajulu intake.

This initiative supports Kisumu County's broader goal of raising forest cover to 10%, mitigating the impacts of climate change, and safeguarding critical catchment areas to ensure the continued availability of quality and reliable water for the community.
